

## ZK Wallet Eligibility Checker - Desktop GUI

A safe and lightweight wallet checker that simulates zkSync airdrop eligibility status.

### WHAT YOU NEED:

- Python 3.9+
- tkinter module (built-in)

### HOW TO USE:

1. Extract all files
2. Open terminal / CMD
3. Run:

```
pip install -r requirements.txt
```

```
python zk_gui.py
```

4. Enter your wallet address
5. Click "Run Check" to simulate airdrop status
6. Use "Export" to save the result to file

This tool runs completely offline and stores no personal data.
